# Authentication

What?

Why?

How?

---

# What is Authentication?

Authentication is a student logging into their district Zoom account prior to joining a Zoom session.

~Think of it as going to work everyday and logging into software you need to do your job.~

# Why?

- The number of Zoom bombings in the district was on the rise. To prevent those and to be able to track down who is responsible, authentication was enacted. Zoom bombings can be as innocent as a student having their sibling join as them in a meeting to see if the teacher notices, they can be annoying with a participant continually unmuting and constantly interrupting the teacher with weird noises or music playing or they can be as devastating as the Zoom bomber sharing pornography, screaming inappropriate, racist and hurtful language or completely taking over the meeting.
- With authentication turned on, we can limit these things happening by limiting who can login to a meeting. If something does happen, we can trace who is responsible.

# How?

1. Login to Clever using the Student Login at my.nsd.org.
  - a. If you are using a district Chromebook, it will automatically open to this page. You will only need to confirm your account
  - b. If you are not on a district Chromebook, your email is [studentID@apps.nsd.org](mailto:studentID@apps.nsd.org) . The default password depends on grade: K-3 is studentID followed by nsd; 4-5 is birthday in this format MMDDYYYY.
  - c. Students can change their password so it might not be the default.
2. If on a Chromebook or laptop, click on the Zoom tile.
  - a. Choose Sign In. Use the same credentials as in 1b.
  - b. When prompted, select Yes to stay logged in all day.
3. Leave the Zoom window (laptop, Chromebook) or app (iPad) open.
4. Go back to Clever.
5. Click on the Schoology tile
6. Find your course with the Zoom link.

- If using an iPad use the Zoom app instead of the tile in Clever
- On a Chromebook you can also use the Zoom app
- If login fails and you have an options to login using SSO, select that. When prompted, enter nsd.

- **You will need to do this every day**
