

Note From Mrs. Liburdy

Dear PTA,

Thank you for funding the "Bat Lady" with the SEC grant.

I appreciate your continued support. My students wanted to thank you too and also teach you why bats are important to our environment.

- Barb
Liburdy
3rd gr.

Dear PTA,

Thank you for donating money to the bat lady so she can come here. Bats are very important because micro bats help decrease the population of insects, nectar-eating bats pollinate night-blooming plants, and fruit bats eat mushy, overripe fruit that would otherwise attract pests. Without these things, life would be much harder.

Sincerely, Arden.

Dear PTA,

Thank you so much for letting the
Bat Lady come.

One thing I loved to learn is....

Bats are endangered and they will not harm you,

Sincerely,
Agnes.

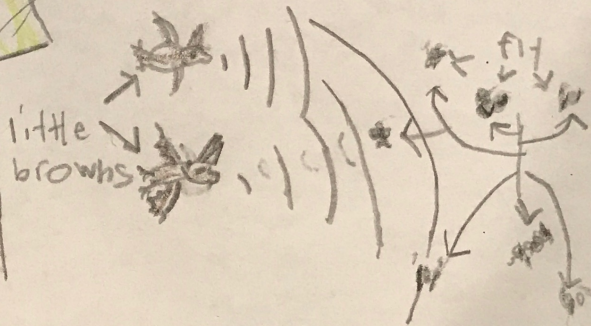

bat getting stuck in your hair.

Dear PTA,

Thank you for letting us learn about bats from the bat lady. I learned that bats are the only mammals that fly, flying squirrels glide. Sincerely, Annika.

from: Karven

Dear PTA,

Thank you for bringing the bat lady. One thing I learned...
bats (little brown) keep bug population under control

Lily

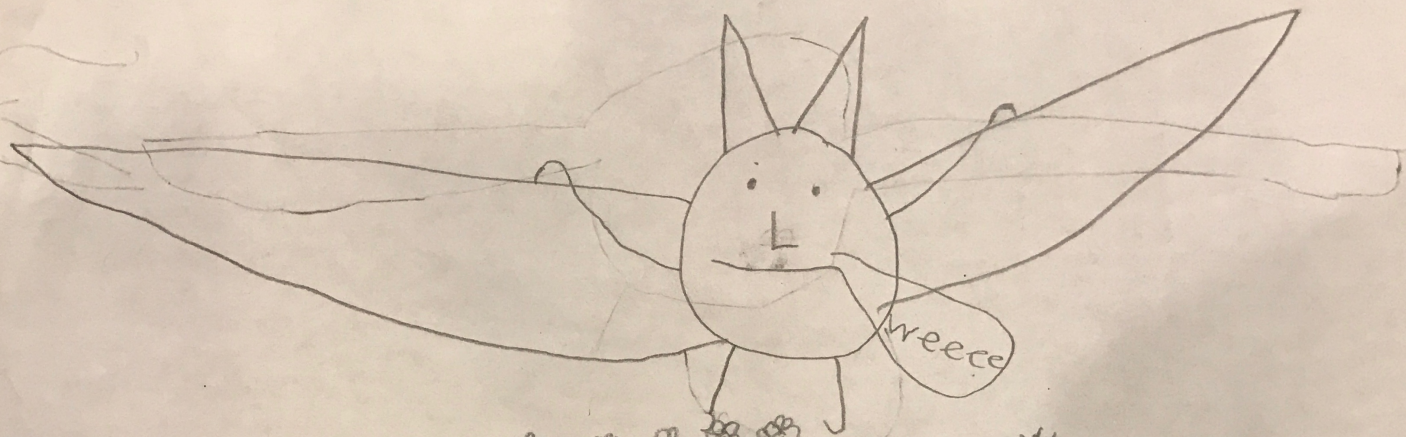

Turn upside down!

Gray Myotis

Dear PTA, I appreciate you

I appreciate you letting the bat lady come to our school,
Thank you! One reason bats are important is: some
bats that eat fruit, megabats scatter seeds, also insectivores,
Microbats help keep insect populations under
control. Bats are very important to the earth

Sincerely, Lily

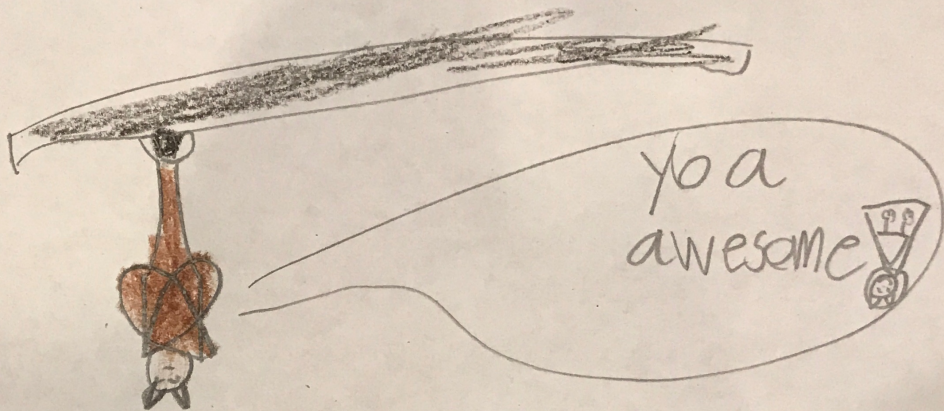

Dear PTA,

Thank you for giving all that money to the bat Lady to bring her to our class.

Did you know bats can eat 600 mosquitos in one hour? I learned

a lot. From, Anna

Dear PTA,
I appreciate that you had the Bat lady come and see us. Did you know that Bats keep insect population under control?

- Camille

Dear PTA,

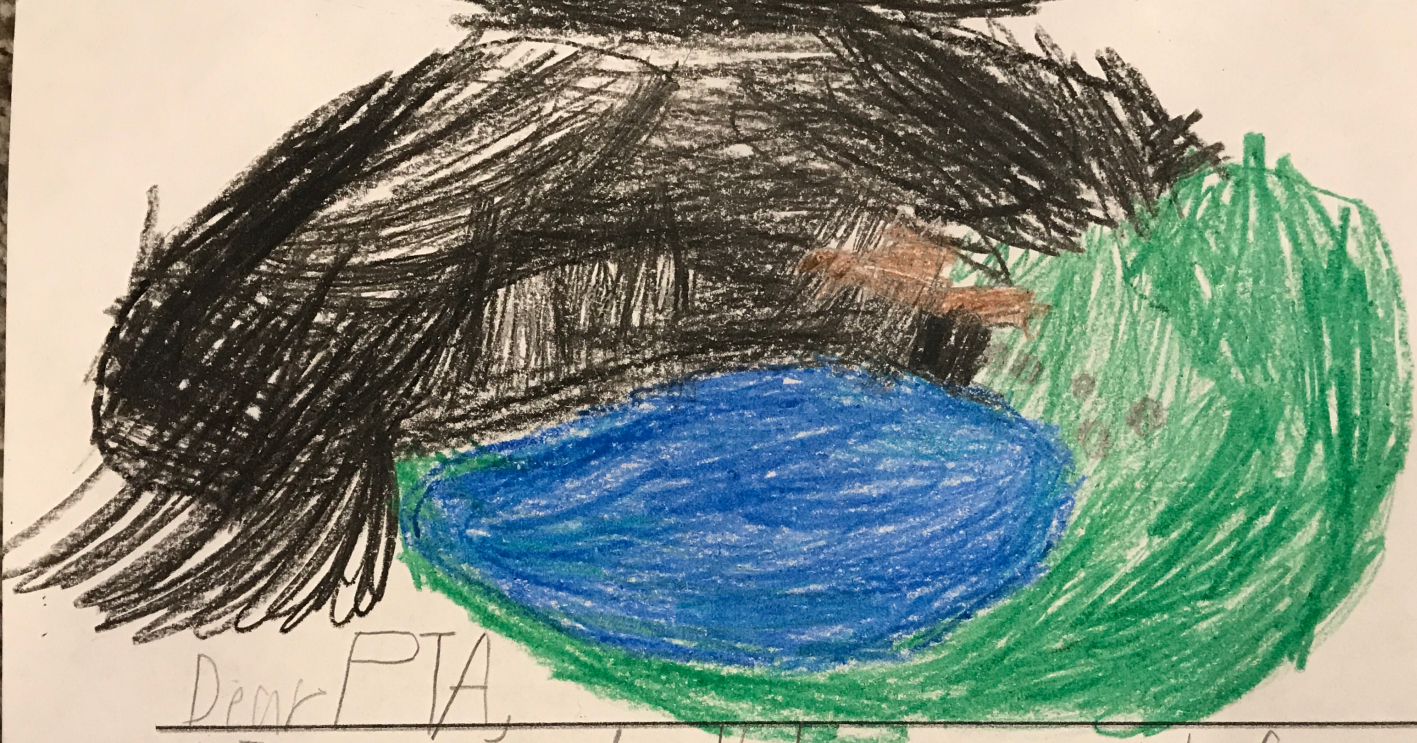

I appreciate you for bringing the bat lady.
I hope you will understand the bats are indangered
and need our help. myths have been told about
them that are NOT true. Thank You!

Sincerely, Eva

Dear PTA

Thank you for letting the Bat Lady
come to Arrowhead. Did you know?
That with out bats the insect pop-
ulations with go wild. Sincerely, Roman

Dear PTA,

I appreciate that you paid for the bat lady. Bats are endangered and need help. Fruit bats eat the rotten fruit off of mango and fig trees.

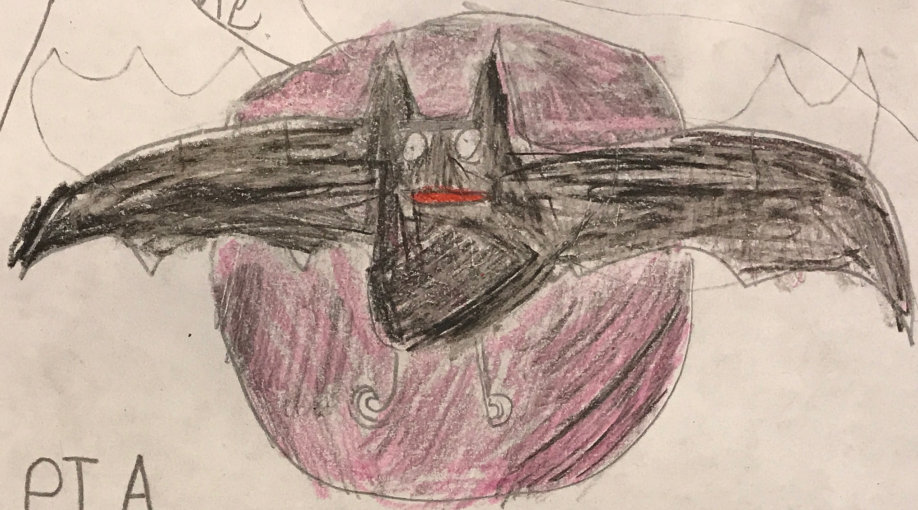

from,
Zach 😊

Dear PTA,

Thank you for bringing the Bat Lady!
Bats are endangered and need our help!
People they don't understand bats, bats don't
get caught in your hair. From Elizabeth

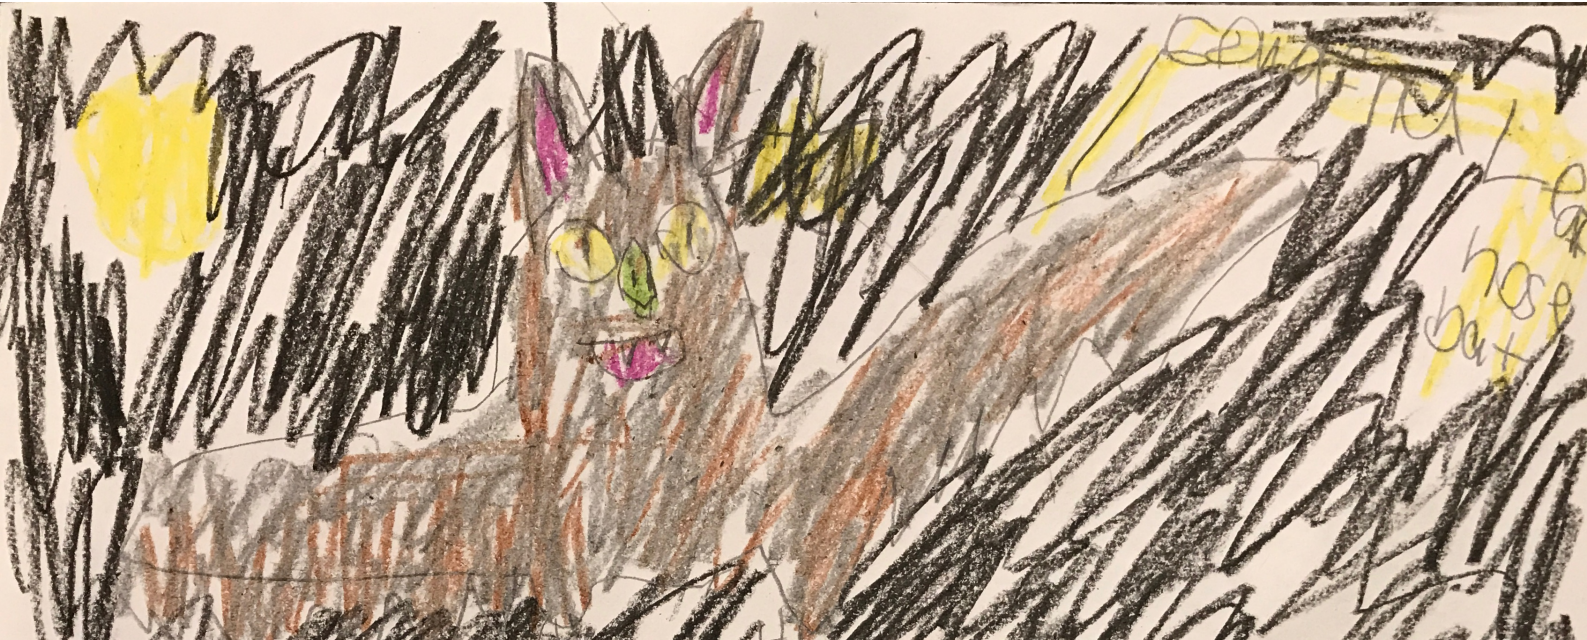

I help
you

ne

Dear PTA,

thank you for bringing the bat lady. Bats
are many enemies us because we don't
know how they help the world bats
eat bugs so it won't be buggy around.

by Welles

Dear PTA, Thank you for
bringing the bat lady. I
appreciate bat help us and
bats are endangered and
bats are important so
thank you from McKenna

Dear: PTA

Thank you for making munny so we can have
someone visit. Bats are vary in portent. They
ceap all the bug's away and eat bad fruit.

I am so thank fooll for you and the bat Lady.

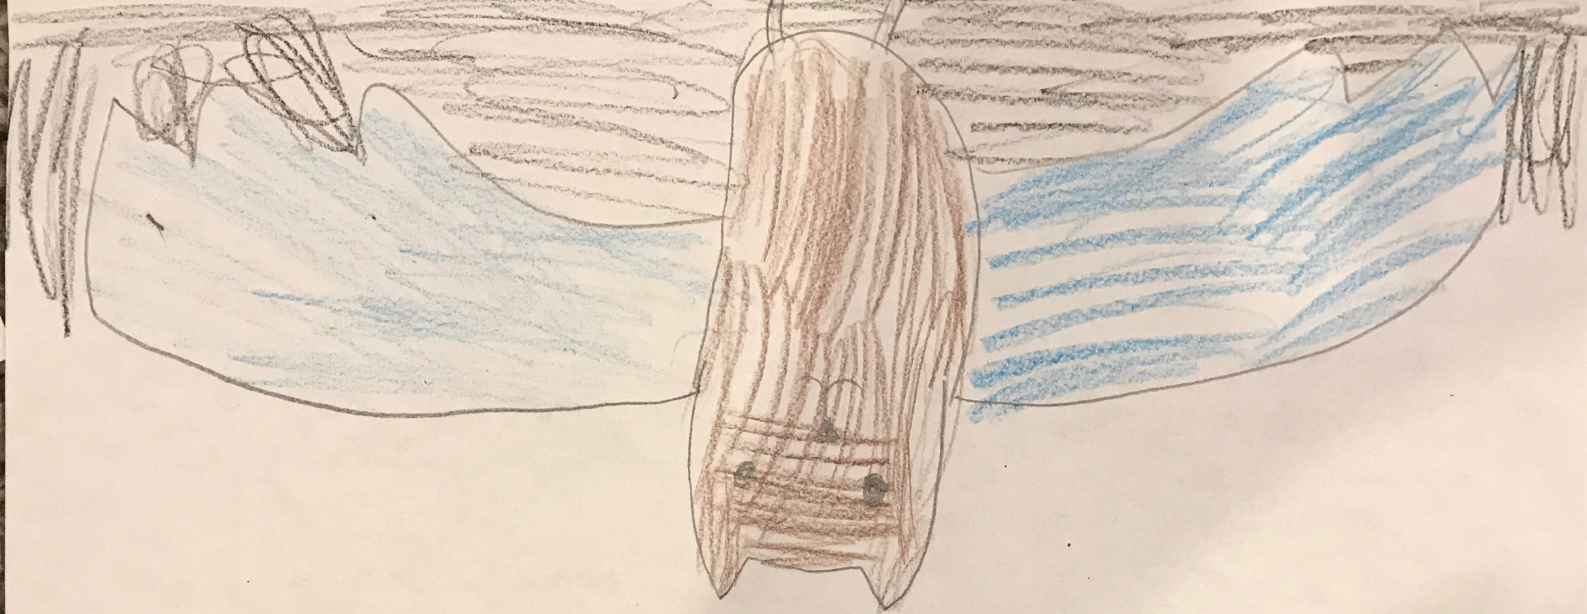

Thank you, fome, Sienna

Dear PTA,

Thank you for bringing the Bat
label to your school. one thing I
learned was that Bats eat too rip fruit
for us to eat. so they eat it, and show us.

From: Aiyah
We can
not eat
+

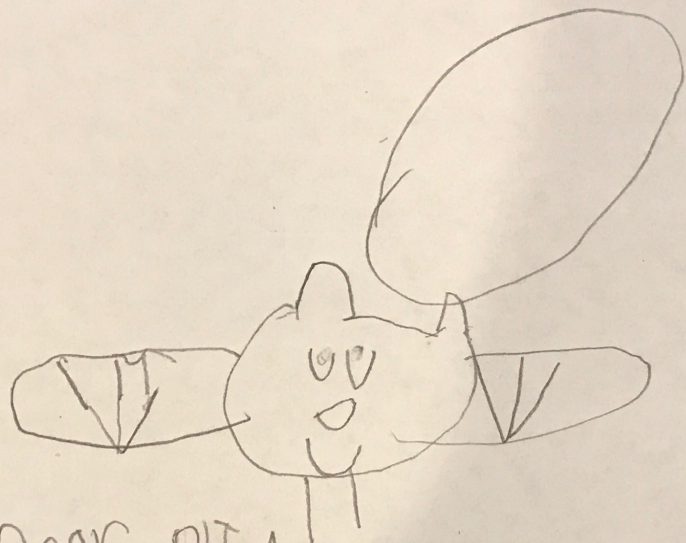

Dear PTA,

Thank you for bring the
Bat lady to Arrowhead!

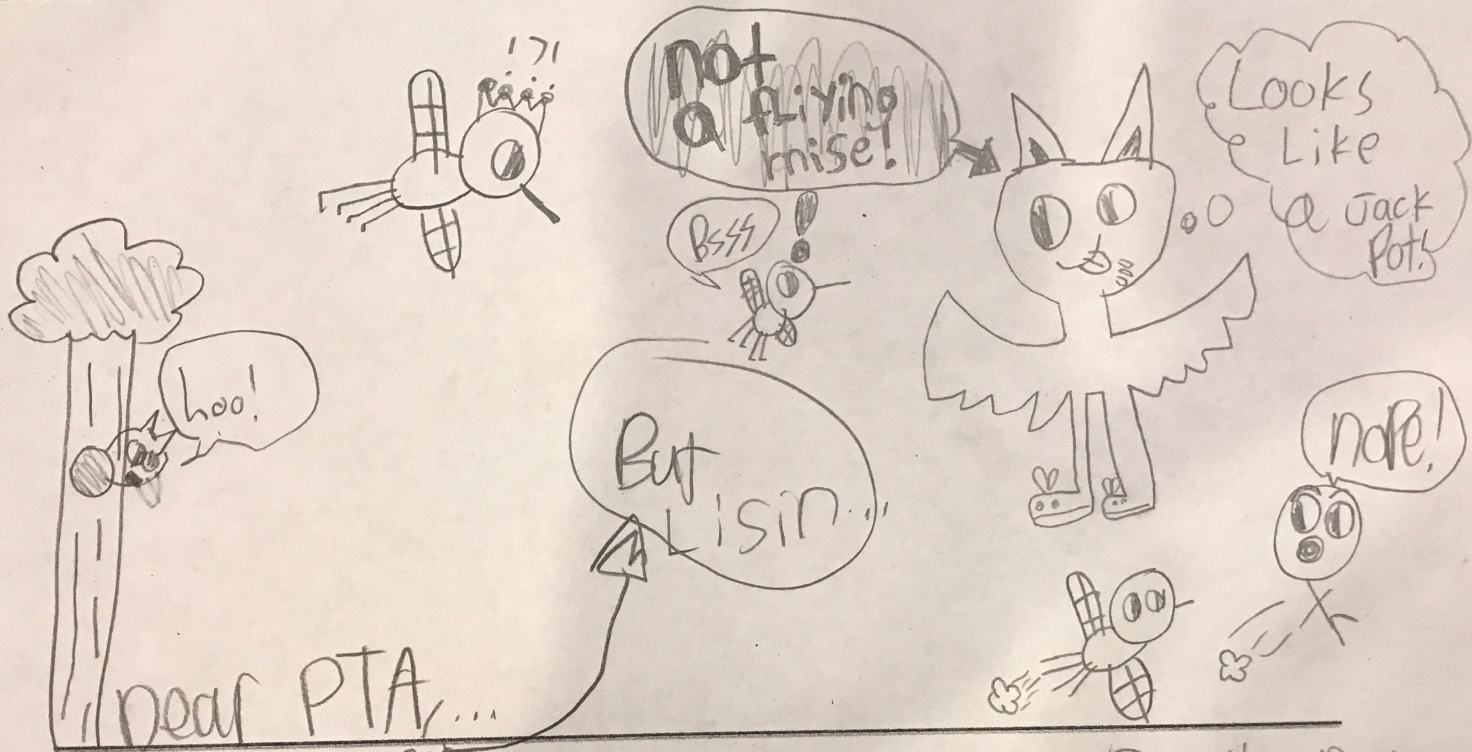

Bats are important because
they help keep insect populations
low.

Sincerely Cooper

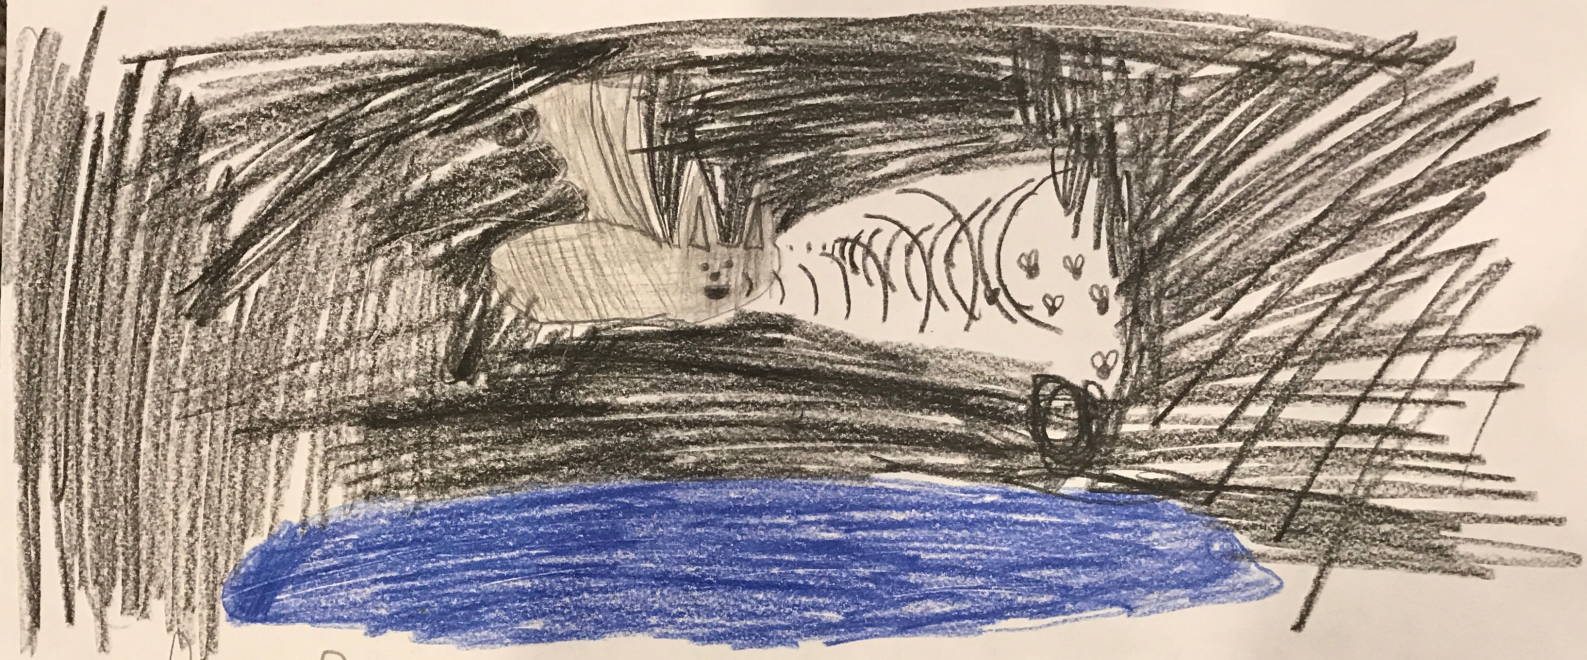

Dear PTA,

Thank you for bringing the Kibati study to our classroom. Some things I learned are that bats are endangered and that bats can help farmers. Sincerely, Ezra

Dear PTA, ...
 Thank you ^{Bats} Bats are very good. Don't believe
 me? Listen to this: Bats eat insects
 and help farmers. (By eating Dead fruit and
 insects) Wite nose is Bad for Bats.
 Peld & have been suffering with insects.
 (With out Bats)
 Love: tucker

Dear PT A,

Thank you so much for letting the bat lady come to Arrowhead! Two things I learned is that tent making bats are roommates with tarantulas! And also bat poop is great fertelizer! Love Chloe

From Chloe Johnson.

Dear PTA,

thank you for bring the bat Lady to
Arrowhead! One thing I learned is Bats don't
fly in to your nose! and bats don't
suck your blood! sincerely Alyssa
